

STUDENT HEALTH EXAMINATION AND SCREENING POLICY

1.0 Objectives

The objective of this document is to describe the welfare and safety of the children through student health examination and screening

2.0 Scope

This process applies to GIIS Dubai.

3.0 Policies

In accordance with the guidelines of Dubai School Health Authority, the school is required to perform Medical Examinations to the following:

All new students

- KG students
- Grade 1
- Grade 4
- Grade 7
- Grade 10
- Leaving students

Annual Growth Screening and BMI are required to be taken annually to all the students. Along with it general examination eye screening, dental screening are also done.

- a. The school notifies the parents prior to the medical examination.
- b. Children are given dietary advice according to their BMI (Obesity, overweight, thinness and severe thinness)
- c. Parents who prefer to avail the examination from their family doctor are requested to provide a medical examination report which will be attached to the student's medical file.
- d. The welfare and safety of the children are the utmost priority and they are supervised by the school nurse at all times during examination.
- e. Parents are informed of any abnormalities seen during examination and referral is made accordingly.
